

IMPORTANT ANNOUNCEMENTS

For those doing work or planning to do work on a site operating under an **Individual** or **General NPDES Permit** for discharges of stormwater associated with construction activities.

NEW VSIR FORMS

In December 2024, the Pennsylvania Department of Environmental Protection (DEP) released new Visual Site Inspection Report (VSIR) forms that are available in **DEP's eLibrary**. These updated forms should be used in place of the old VSIR forms **from now forward**.

NEW TRAINING

By December 8th, 2025, site inspections must be performed and Visual Site Inspection Reports must be completed by qualified personnel that are trained and experienced in E&S and PCSM BMP construction, function, and maintenance and are familiar with the E&S and PCSM Plans for the project site.

One way to meet this requirement is for site inspectors to complete the **Qualified Site Inspector Training Program** in Clean Water Academy.

This 5-part online training program will take approximately 10 hours to complete.
