

Event Rules:

-Each team must have a chaperone to stay with them throughout the day.

-Chaperones may not sit with their teams at the testing stations, nor can they answer questions or otherwise aid their teams.

-There are to be no cell phones at the testing stations. Please ask your students to leave them on the bus, or a chaperone may hold onto them until lunch. If students are found with cell phones any time before lunch, they risk disqualifying their entire team.

-Teams may not discuss test questions with anyone but their own teammates until all teams have completed all five stations (lunch time). Sharing information, eavesdropping, or otherwise interfering with the fairness of the testing procedure is grounds for disqualification or a nulled station score.

-A 'home base' will be designated at the site. Students must always remain in view of home base and may not venture to other areas of the park.
